Ranges	F_{MSY} Range Lower	Not Appropriate (bycatch)
	F_{MSY}	Not Available
	F_{MSY} Range Upper	Not Appropriate (bycatch)
Landing Obligation	From 2019	No derogations or exemptions

MANAGEMENT IN 2023

- ICES provides triennial advice for this stock (2022-24).
- TAC covers ICES Sub-areas 6 and UK and international waters of Division 5.b and international waters of 12 and 14. Therefore, the TAC cannot effectively manage catches in Division 6.b (Rockall) specifically.
- TAC is exclusively for bycatches; no targeted fisheries are permitted.

2023 Quota Allocations

KEY STOCK CONSIDERATIONS

- Irish landings of whiting at Rockall are taken as a minor bycatch in mixed fisheries and are mainly landed with haddock.
- It is only in recent years that whiting have been recorded in the catches of surveys and commercial fishing. The stock structure and origin of whiting at Rockall is not known, but it is possible that whiting caught at Rockall may have migrated from other areas.

Further information on this stock can be found in the 2021 Stock Book.
